

Intelligent Endo Motor

360° Rotary head 16:1 Contra-angle Ai intelligence

Technical parameter Brushless All-in-one

Power Adapter	AC100-240V	
Torque	0.6N.cm-4.0N.cm	
Rotate speed	120rpm-700rpm	
REC adjustable angle	30° , -150° , 150° , -30° , 90° , 90°	

Built-in apex locator

Realize measurement while expansion

Core algorithm

Enlarging while measuring
Efficient and safe

Color Screen

Beautiful display

360° Rotary mini head

Unobstructed view For different teeth positions, more flexible

Ball bearing contra angle

Transmission efficiency > 90% Stainless steel material for better performance and strength

Ergonomic Design

More comfortable and suits for left and right hand
Use the wireless signal to control handle, and get rid of the shackles of the tail line
